## Experience

- **Front-end developer**

**Aladag Enerji** | Bolu, Turkey ( Dec 2015–Nov 2016) – <http://aladagenerji.com/>

Successfully, helped the team building the main website, My responsibilities were

- Build the website's Markup
- Styled the website from scratch using CSS3 and Bootstrap

- **English Instructor**

**Bolu English** | Bolu, Turkey (Sep 2014–Nov 2015)

Started as a teacher assistant providing support lessons and mentoring students activities.

I suggested organizing extra speaking and grammar lessons, and due to the great results, i was promoted to instructor.

- **Internship front-end developer**

**Al-Bilad inc.** | Baghdad, Iraq (May 2012–May 2013)

As a computer engineer student, my summer internship (Summer training) was at **Al-Bilad inc. where I**

- Build HR's software's Markup
- Build HR's software's CSS from scratch
- Learned and got good experience with JQuery

- **Computer Repair and Maintenance**

**Self-employed** | Baghdad, Iraq  
(2010 – 2012)

A small business started while i was studying Computer Techniques Engineering.
